This year's 14th WCSC conference series, themed 'Resilient Urbanisation Planning Towards Malaysia MADANI,' will focus on exploring proactive steps required for cities to achieve resilience, sustainability, and livability. The conference aims to address various aspects that contribute to a better quality of life, including social inclusiveness, affordability, housing, accessibility, mobility, health, education, safety, and security. Additionally, the conference will emphasize the importance of vibrant public spaces and strategies for reducing carbon emissions to mitigate the impacts of global climate change.

Established since 2009, the 'International Conference on World Class Sustainable Cities (WCSC) annual series aims at providing a constructive and inclusive platform to enlighten, educate, inspire and encourage community engagement among the public & private sectors, as well as community groups and city residents.

Throughout the past thirteen (13) WCSC conferences, with the official endorsement and support of Kuala Lumpur City Hall (DBKL), WCSC has successfully managed to share, educate, enlighten and create greater awareness to City Managers, Residents' Associations, NGO's, built-environment industry professionals, academicians and all city stakeholders on the benefits and challenges faced in our aspirations of becoming a World Class City. WCSC has continuously engaged with world renowned experts to showcase some of the best practices and experiences from cities across the world, and to provide an opportunity for conference participants to learn and understand the efforts made within our own nation to make Kuala Lumpur City, a World Class City.

14TH INTERNATIONAL CONFERENCE ON
WORLD CLASS SUSTAINABLE CITIES

Resilient+
Urbanisation
Planning Towards Malaysia MADANI

Dr. Ir. BAMBANG SUSANTONO

*MCP, MSCE, PhD
Chairman, Nusantara National Capital Authority,
Republic of Indonesia*

Bambang Susantono is the Chairman of the Nusantara National Capital Authority of the Republic of Indonesia. He was inaugurated by Indonesian President H.E. Joko Widodo in March 2022. The Authority, a ministerial-level agency working directly under the President, is in charge of planning and constructing Indonesia's new capital.

Prior to this appointment, Mr. Susantono was the Vice-President for Knowledge Management and Sustainable Development of the Asian Development Bank (ADB) between 2015–2022. He was responsible for managing ADB's Sustainable Development and Climate Change Department, Economic Research and Regional Cooperation Department, and External Relations Department.

Before ADB, Mr. Susantono was Indonesia's Vice Minister of Transportation and, prior to that, Deputy Minister for Infrastructure and Regional Development at the Coordinating Ministry of Economic Affairs. He chaired several research institutes, taught in universities, and previously commissioner for some airline, port, telco, and media companies.

Among other activities in international organizations, Mr. Susantono currently serves as a member in United Nations' High-Level Experts and Leaders' Panel on Waters and Disasters, Islamic Development Bank Institute's Board of Trustees, Bloomberg New Economy Council for Cities, and Tech for Good Institute's Advisory Board.

He has published numerous books and papers on urban planning and transportation, both in English and Indonesian. "Creating Liveable Asian Cities" and "Informal Services in Asian Cities" are among his books published by Asian Development Bank. His papers also published in reputable journals, with title such as "Accelerating National Competitiveness Through Economic Corridor Development: Indonesia Masterplan Revisited", "On Hedging Properties of Infrastructure Assets During the Pandemic: What We Learn from Global and Emerging Markets?", and "Urban Water Future: What Can We Learn from the Singapore Experience?".

Mr. Susantono holds a PhD in Infrastructure Planning and master's degrees in Transportation Engineering, and City and Regional Planning from the University of California Berkeley. He holds a bachelor's degree in Civil Engineering from the Institute of Technology, Bandung.

JAMES TUMA

*Group Director,
Futura State, URBS*

James is a visionary urban designer with a broad skills palette; and the leader of Urbis' strategic advisory arm: Futura State. Futura State leverages Urbis and Cistri's evidence-base and combines it with creative problem solving to help government and the private sector create better cities.

Since joining Urbis in 2005, he has worked on significant national and international projects in Australia, Asia and Europe including the structuring and conceptualisation of new towns, urban renewal and revitalisation strategies for major capital cities, university campuses, major tourism precincts, and significant infrastructure projects.

James is an advocate for sustainable and inclusive cities and focuses on imaginative solutions to the most complex urban challenges of our time. He has made outstanding contributions in leading the two most recent master plans for Brisbane City Centre, is the lead designer for the internationally significant Queen's Wharf redevelopment and advised on the redevelopment and governance of Orchard Road in Singapore. He also contributes to improving our cities in his role as Adjunct Professor of Design at Queensland University of Technology and is currently the lead advisor for the Brisbane 2032 Olympic and Paralympic Games Legacy strategy and plan.

From July 2023 as the newly appointed Managing Partner, James is motivated to cement Urbis and Cistri as the leading voice on cities.

JAIME PARSONS

*Principal Advisor Urban Design,
City of Hobart, Tasmania*

An Urban Designer, place maker and strategic planner first and foremost because of my passion for cities as the global social, cultural and economic generators.

Jaime has extensive knowledge and experience at all project and policy scales reaching from future city urban planning to site, master planning and public realm design. He have also led and contributed to community and stakeholder engagement, visualization of new built form, public space and infrastructure and provided project and design review. He also have a background in tourism and information technology that allow him to gain economic and technological insights that he apply to shaping towns and cities.

City and town planning, design and place making are a collective endeavor that require all manner of perspectives, knowledge, skills, ideas and backgrounds to become a good places. As such he have also sought to develop significant experience in project and team management, extending to leadership and mentorship skills.

SARAVANAN SUGUMARAN

Managing Director, MORROW Intelligence

Saravanan is a former journalist and policy specialist, who has authored international reports on soft power and governance. He has been an invited speaker and facilitator for events in New York, Palestine and across Asia.

He previously served as Senior Assistant Director in Singapore's Centre for Liveable Cities, Ministry of National Development, during which he led the review and benchmarking of the pandemic's impact on Singapore's development objectives and liveability framework.

He now heads the Urban Advisory arm of MORROW, applying innovative and quantitative research methods to address and achieve nation's/cities development goals in the face of modern urban and socio-economic challenges.

TPr Ts. NORLIZA HASHIM

*Chief Executive Officer,
URBANICE Malaysia*

Norliza Hashim is the Chief Executive of Urbanice Malaysia, a Centre of Excellence for Urban Wellbeing and Sustainability. Urbanice governs on four areas – Knowledge Platforms, Urban Innovation, SDDs Projects and International & Local Partnerships, that aim to provide urban leaders and practitioners with the knowledge and support to achieve sustainable urbanization.

Norliza is a registered town planner and is the Principal and Founder of her consulting firm for the past 28 years – AJM Planning and Urban Design Group Sdn Bhd which covers a wide spectrum of the planning discipline and developing plans and blueprints that has also contributed towards Malaysia's nation building and to more than 12 countries including Russia, China, Pakistan, India, Saudi Arabia and a UN-Habitat consultant (Urban and Housing Rehabilitation Programs).

She led a team to organize the Ninth Session of World Urban Forum for UN-Habitat and the Malaysian Government, formulate the Low Carbon Cities Assessment Framework for the Ministry of Energy, Green Technology and Water and formulated the Malaysia SDG Cities Roadmap. She is now the Director for Malaysian Institute of Planner's Low Carbon Cities and Sustainability Centre, a Fellow with Institute Masa and is a member of the Leadership Council for Sustainable Development Solutions Network Malaysia, where her passion lies in promoting the sustainable agenda to providing innovative solutions that contribute towards better quality of life and Malaysia's built environment.

Norliza is also the Chairman for Penang Platform for Sustainable Urbanisation, a coalition of organization from the Asia Pacific, and had served as the Secretary General of the Eastern Regional Organization for Planning and Human Settlement (EAROPH), the Board Member for Malaysia Board of Technologist, Board of Town Planners Malaysia, President for Malaysian Institute of Planners from 2005-2011 and currently sits on several advisory panels in our local public universities.

MS CHATCHANIN SUNG

*Director,
Arsomsilp Community and Environmental Architect*

Arsomsilp Community and Environmental Architect, a professional architecture studio established to support "work-based learning" for school of architecture of Arsomsilp Institute of the Arts, a non-profit institution of higher education established as a learning community committed to "transformative learning." We develop architects through education using holistic concepts and together aim for beneficial societal change.

There are four multidisciplinary studios namely studio of architecture, community architecture, landscape architecture and model crafting

Chatchanin Sung, a 15-year-experienced landscape architect who previously worked in Thailand, Hong Kong and UAE during 2008 - 2015, and currently works as executive director and director of landscape architecture studio at Arsomsilp Community and Environmental Architect firm, Thailand for eight years, passionate in public service and environmental projects with the strong vision of "Participatory Architecture for Change"

She also has been worked in various kind of projects such as commercial, residential, hospitality, education & institute, master planning, park & public space, etc. dealt with many challenges with problem-based design and multidisciplinary process with other work fields such as architect, engineer, botanist, biologist, hydrologist, contractor, local community, other experts, etc.

The past few years her team's projects have been awarded nationally and internationally in many categories of work including Benjakitti park which latest won the first prize at an international award called "UIA Friendly and Inclusive Spaces Awards" in public & open scape category.

MOHD AZHARUDDIN MAT SAH

*President & Group Chief Executive Officer,
PRASARANA Malaysia*

Encik Mohd Azharuddin Mat Sah was appointed as Prasarana's President and Group Chief Executive Officer on 15 July 2021.

Formerly the Group Chief Transformation Officer of Malaysia Airlines Berhad, he brings to Prasarana a rich wealth of experience on the nation's public transportation services; having served as the Chief Executive Officer of Suruhanjaya Pengangkutan Awam Darat (SPAD) from 2015 to 2018. At SPAD, he was responsible on matters of policy, planning, development and enforcing public transport laws; and enhancement of the urban rail, bus, taxis and commercial vehicle services. He has also served with the nation's transformation agency, PEMANDU as Director for Urban Land and Greater KL/Klang Valley Public Transportation for two years from 2014.

Azharuddin is a graduate of University of Kent at Canterbury, United Kingdom with a degree in Arts – Economics and Law. He started his career with Shell Malaysia and was placed in the UK at Shell International Petroleum Company, London. After serving Shell for 11 years, he continued his career at Khazanah as the Senior Vice President; Director for Public Sector at Microsoft Malaysia; and as Director in PEMANDU.
